A comprehensive, inquiry-based approach to biology BSCS Biology: A Molecular Approach (Blue Version) challenges gifted and honor students to think scientifically, to integrate concepts, to analyze data, and to explore complex issues. This research-based program, developed with funding from the National Science Foundation, supports an inquiry approach to biology. It provides students with the background information needed to ask their own research questions and to conduct their own investigations. Over 60 in-text labs create positive opportunities for students to engage in inquiry learning.

Biology Standards Practice

Biology: An Everyday Experience is designed for students with a broad range of abilities. This comprehensive course of study in biology emphasizes fundamental concepts of biology and their everyday applications, critical-thinking and study skills, and hands-on experiences. The text applies the study of biology to students' everyday worlds, thereby making it relevant and exciting. Everyday analogies illustrate all major concepts and make biology more understandable. The program has a controlled reading level to allow the presentation to be accessible to all students.
