The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

"Herblock's History" is an article written by Harry L. Katz that was originally published in the October 2000 issue of "The Library of Congress Information Bulletin." The U.S. Library of Congress, based in Washington, D.C., presents the article online. Katz provides a biographical sketch of the American political cartoonist and journalist Herbert Block (1909-2001), who was known as Herblock. Block worked as a cartoonist for "The Washington Post" for more than 50 years, and his cartoons were syndicated throughout the United States. Katz highlights an exhibition of Block's cartoons, that was on display at the U.S. Library of Congress from October 2000. Images of selected cartoons by Block are available online.

“ If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to ‘ do something, ’ you already have much in common with the writers of the three essays in this book. ” — Adrienne Rich With a preface by Adrienne Rich, Manifesto presents the radical vision of four famous young rebels: Marx and Engels ’ Communist Manifesto, Rosa Luxemburg ’ s Reform or Revolution and Che Guevara ’ s Socialism and Humanity.

A timely update to the phenomenal national bestseller. Soon after its quiet release during the height of the Red Scare in 1958, The Naked Communist exploded in popularity, selling almost two million copies to date and finding its way into the libraries of the CIA, the FBI, the White House, and homes all across the United States. From the tragic falls of China, Korea, Russia, and the UN, to the fascinating histories

of Alger Hiss, Whittaker Chambers, Elizabeth Bentley, and General MacArthur, *The Naked Communist* lays out the entire graphic story of communism, its past, present, and future. After searching unsuccessfully for a concise literature on the communist threat, W. Cleon Skousen saw the urgent need for a comprehensive book that could guide the American conversation. So he distilled his FBI experience, decades of research, and more than one hundred communist books and treatises into one clarifying, readable volume that became a touchstone of American values and earned praise from the likes of President Ronald Reagan, Glenn Beck, and Ben Carson. Lauded by one reviewer as “ the most powerful book on communism since J. Edgar Hoover ’ s *Masters of Deceit*, ” this text draws a detailed picture of the communist as he sees himself: stripped of propaganda and pretense. Readers gain a unique insight into the inner workings of communism—its appeal, its history, its basic and unchanging concepts, even its secret timetable of conquest. Among the many questions *The Naked Communist* answers are: * Who gave the United States ’ nuclear secrets to the Russians? * How did the FBI fight communism after it was forced underground in 1918? * Why did the West lose 600 million allies after World War II? * What really happened in Korea? * What is communism ’ s great secret weapon? * What lies ahead? * What can I do to stop communism? * How can we fight communism without a major war? Now updated for 2017, this edition includes a chapter on the forty-five Communist Goals, detailing how forty-four of those goals have been achieved in the U.S. already, as well as a chapter on the making of *The Naked Communist*, shedding light on how this book has sold almost two million copies. As relevant now as it was sixty years ago, Skousen ’ s groundbreaking work provides a renewed understanding of one of the greatest threats facing America today. Praise for W. Cleon Skousen: “ No one is better qualified to discuss the threat to this nation from communism. You will be alarmed, you will be informed, and you ’ ll be glad you heard him. ” —President Ronald Reagan “ I have never given any volume such an unqualified endorsement. ” —CBS national broadcaster Paul Harvey “ I went back and I read *The Naked Communist*, and at the end of that, Skousen predicted [that] someday soon you won ’ t be able to find the truth in schools or in libraries or anywhere else because it won ’ t be in print anymore. So you must collect those books. It ’ s an idea I read from Cleon Skousen from his book in the 1950s, *The Naked Communist*, where he talked about [how] someday the history of this country ’ s going to be lost because it ’ s going to be hijacked by intellectuals and communists and everything else. And I think we ’ re there. ” —Glenn Beck, host of the nationally syndicated Glenn Beck Radio Program “ *The Naked Communist* lays out the whole progressive plan. It is unbelievable how fast it has been achieved. ” —Dr. Ben Carson (*The Sean Hannity Show*; May 23, 2014) “ I feel certain that your efforts on this important subject will receive widespread attention and consideration. ” —J. Edgar Hoover, first Director of the Federal Bureau of Investigation “ We believe in a moral code. Communism denies innate right or wrong. As W. Cleon Skousen has said in his timely book, *The Naked Communist*: The communist ‘ has convinced himself that nothing is evil which answers the call of expediency. ’ This is a most damnable doctrine. People who truly accept such a philosophy have neither conscience nor honor. Force, trickery, lies, broken promises are wholly justified. ” —Ezra Taft Benson, United States Secretary of Agriculture under President Eisenhower

It has long been assumed that the historical legacy of Soviet Communism would have an important effect on post-communist states. However, prior research has focused primarily on the institutional legacy of communism. *Communism's Shadow* instead turns the focus to the individuals who inhabit post-communist countries, presenting a rigorous assessment of the legacy of communism on political attitudes. Post-communist citizens hold political, economic, and social opinions that consistently differ from individuals in other countries.

Grigore Pop-Eleches and Joshua Tucker introduce two distinct frameworks to explain these differences, the first of which focuses on the effects of living in a post-communist country, and the second on living through communism. Drawing on large-scale research encompassing post-communist states and other countries around the globe, the authors demonstrate that living through communism has a clear, consistent influence on why citizens in post-communist countries are, on average, less supportive of democracy and markets and more supportive of state-provided social welfare. The longer citizens have lived through communism, especially as adults, the greater their support for beliefs associated with communist ideology—the one exception being opinions regarding gender equality. A thorough and nuanced examination of communist legacies' lasting influence on public opinion, *Communism's Shadow* highlights the ways in which political beliefs can outlast institutional regimes.

Collects and analyzes seventy years of communist crimes that offer details on Kim Sung's Korea, Vietnam under "Uncle Ho," and Cuba under Castro.

Afterlives of Chinese Communism comprises essays from over fifty world-renowned scholars in the China field, from various disciplines and continents. It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today. Each chapter discusses a concept or practice from the Mao period, what it attempted to do, and what has become of it since. The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today, and whether there is a future for the egalitarian politics that it once promised.

Through a reading of major publications, this book recreates a postwar mood sympathetic to radical social change, thus casting doubt on the standard view of the communists' rise to power. It also raises questions about the relationship between war and radical social change, the communist takeover of the region, and the role of intellectuals.

A riveting and powerful story of an unforgiving time, an unlikely friendship and an indestructible love

Amadeo Bordiga was one of the greatest figures of the Third Communist International. *The Science and Passion of Communism* presents his Soviet and internationalist battles in the revolutionary post-WWI period until that against Stalinism, and those in the post-WWII period against the triumphant U.S. capitalism and for an original, updated re-presentation of Marxist critique of political economy.
