Introduction to Digital Mobile Radio (DMR) for Amateur Radio operators. Describes the basics of the DMR technology, how radio amateurs are implementing world-wide networks, selection of user radios, and basic operation for the beginner or someone deciding to purchase DMR equipment to use in amateur radio.

This handbook is designed to aid electronic warfare and radar systems engineers in making general estimations regarding capabilities of systems. It is not intended as a detailed designer's guide, due to space limitations. Portions of the handbook and future changes will be posted on an internet link.

Imaging Informatics Professionals (IIPs) have come to play an indispensable role in modern medicine, and the scope of this profession has grown far beyond the boundaries of the PACS. A successful IIP must not only understand the PACS itself, but also have knowledge of clinical workflow, a base in several medical specialties, and a solid IT capability regarding software interactions and networking. With the introduction of a certification test for the IIP position, a single source was needed to explain the fundamentals of imaging informatics and to demonstrate how those fundamentals are applied in everyday practice. Practical Imaging Informatics describes the foundations of information technology and clinical image management, details typical daily operations, and discusses rarer complications and issues.

She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. THE "GROUNDS" FOR LIGHTNING & EMP PROTECTION, Second Edition, contains powerful information analyzing proper techniques for grounding & protection against destructive lightning & nuclear electromagnetic pulse (EMP) energy. It encompasses special emphasis on radio communications due to the higher vulnerability to damage. THE "GROUNDS" FOR LIGHTNING & EMP PROTECTION, Second Edition, was written in a non-technical manner, with a minimum of formulas so the maximum number of people could understand & install appropriate protection & grounding systems to safeguard communications equipment against adverse pulses. Numerous "how-to" charts, graphs & pictorials illustrate these concepts in a comprehensive analysis. From high rise to mountain tops, for radio sites & computer networks, this is a must read book. Additional topics address telephone, central offices, computers, Local Area Networks, cable TV, television receive only (TVRO) & security cameras. Learn from the leading expert in the field of lightning protection & grounding solutions. This comprehensive hands-on guide to proper grounding installation, measurement & maintenance for direct lightning survival book is available by contacting PolyPhaser Corporation, Customer Service Department, P.O. Since its formation in 1853 the story of the Victoria Police has been interwoven with Victorian social and political history. Following the amalgamation of seven separate and distinct police agencies in the colony, the resultant unified body was the first of its kind in Australia. Many events have shaped its development: the gold rushes, the Clunes riot, the Kelly outbreak, the maritime strikes, the coming of the motor car, the police strike, both world wars and the Vietnam war protests, the gangland wars, Black Saturday bushfires and the use of DNA to solve crimes all formed part of this mosaic. This revised edition of The People's Force, containing a new chapter and new illustrations, brings the history up to date to include a decade that has been full of turbulent change. The new chapter examines the administrations of Neil Comrie, Christine Nixon, Simon Overland, Ken Lay and Graham Ashton. New material deals with Silk and Miller, and other police shootings, the growth of terrorism, gender issues, racism and domestic violence. Written as a 'warts and all' history of the Victoria Police with the support and encouragement of the then Chief Commissioner S. I. ('Mick') Miller, who wanted a proper objective history of the force, not a public relations exercise. This third edition is owed largely to Miller's encouragement and his desire to see the history updated.
