Revised to reflect DSM-5, this briefer version of Durand and Barlow's widely taught text fully describes abnormal psychology through the authors' standard-setting integrative approach--the most modern, scientifically valid method for studying the subject. Through this approach, students learn that psychological disorders

are rarely caused by a single influence, but rooted in the interaction among multiple factors: biological, psychological, cultural, social, familial, and even political. A conversational writing style, consistent pedagogy, and real case profiles--95 percent from the authors' own case files--provide a realistic context for the scientific findings of the book. In addition, these features ensure that readers never lose sight of the fact that real people are behind the DSM-5 criteria, the theories, and the research. run throughout the book: Developmental psychopathology: Children's and adolescents' behaviors are on a continuum (from very adaptive to very maladaptive), with only the very severe ends of the spectrum being conceptualized as disorders. Diversity, inclusion, and understanding: Special attention is given to issues of race/ethnicity, gender, family constellation, religious orientation, primary language, socioeconomic status, and physical differences to help students see the commonalities and differences of abnormal child behavior within a cross-cultural and international context. New to the 4th edition Completely revised in both structure and content to reflect the DSM-5 Increase coverage of risk factors related to long-term effects of sexual abuse and bullying. Increased coverage of diversity to include new "diversities" that have emerged as important, i.e. transgender children New research on suicide and

Balancing biological, psychological, social, and cultural approaches, this book's ground-breaking integrative approach is the most modern, scientifically valid method for studying abnormal psychology. Updated with leading-edge research findings, the eighth edition draws on the expertise of David H. Barlow, V. Mark Durand, and Stefan G. Hofmann, three internationally recognized experts in clinical psychology. In **ABNORMAL PSYCHOLOGY: AN INTEGRATIVE APPROACH**, the authors successfully blend sophisticated research with an accessible, engaging writing style. They go beyond simply describing different schools of thought on
