San Francisco book-restoration expert Brooklyn Wainwright is on the case when a rare edition of Rebecca leads to murder in this latest installment of the New York Times bestselling Bibliophile Mystery series. Brooklyn and her hunky husband, security expert Derek Stone, have just returned from a delightful trip to Dharmas, where the construction of their new home away from home is well underway, when a little black book arrives in the mail from Scotland. The book is a rare British first edition of Rebecca, and there 's no return address on the package. The day after the book arrives, Claire Quinn shows up at Brooklyn and Derek 's home. Brooklyn met Claire when the two women worked as expert appraisers on the television show This Old Attic. Brooklyn appraised books on the show and Claire 's expertise was in antique British weaponry, but they bonded over their shared love of gothic novels. Claire reveals that during a recent trip to Scotland she discovered her beloved aunt was missing and her home had been ransacked. Among her aunt 's belongings, Claire found the receipt for the package that wound up with Brooklyn and Derek. Claire believes both her own life and her aunt 's are in danger and worries that her past may be coming back to haunt her. But just as Brooklyn and Derek begin to investigate, a man who Claire thinks was following her is found murdered, stabbed with a priceless jeweled dagger. With a death on their doorstep, Brooklyn and Derek page through the little black book, where they discover clues that will take them to the shadows of a medieval Scottish castle on the shores of Loch Ness. Under the watchful gaze of a mysterious laird and the irascible villagers who are suspicious of the strangers in their midst, Brooklyn and Derek must decode the secrets in Rebecca to keep their friend 's past from destroying their future...

This invaluable " mentor in your pocket " by three dynamic and successful black female executives will help all black women, at any level of their careers, play the power game—and win. Rich with wisdom, this practical gem focuses on the building blocks of true leadership—self-confidence, effective communication, collaboration, and courage—while dealing specifically with stereotypes (avoid the Mammy Trap, and don 't become the Angry Black Woman) and the perils of self-victimization (don 't assume that every challenge occurs because you are black or female). Some leaders are born, but most leaders are made—and The Little Black Book of Success will show you how to make it to the top, one step at a time.

Innovation transforms companies and markets. It's the key to solving vexing social problems. And it makes or breaks professional careers. But for all the enthusiasm the topic inspires, the practice of innovation - how to do it-has remained stubbornly impenetrable. No longer. In The Little Black Book of Innovation, leading thinker Scott D. Anthony draws from research, Innosight fieldwork with global giants such as Procter & Gamble, and personal experience launching and investing in start-up companies to demystify the discipline of innovation. With wit and remarkable insight born of years of both leading and teaching innovation, Anthony presents a simple definition of the concept, breaks down the essential differences between its various types, and illuminates its vital role in organizational success and personal growth.

Author and journalist Gene Fowler put it best: " Writing is easy; all you do is sit staring at a blank sheet of paper until the drops of blood form on your forehead. " Anyone who has ever wanted or been required to create something more complicated than a shopping list or a Tweet knows there 's more truth than poetry in the observation. The process can be difficult, frustratingly so when we realize that although we use words all the time, coming up with the right ones can be a daunting task. Even the most celebrated writers have reflected on this creative process, and their observations and conclusions are collected in this book. The compiler, himself no stranger to a blank page or computer screen, has selected the wisest and wittiest utterances on such subjects as why we write (Ernest Hemingway: " I have a good life but I must write because if I do not write a certain amount I do not enjoy the rest of my life. "); how to write (Anton Chekhov: " Don 't tell me the moon is shining; show me the glint of light on broken glass. "); and writing for money (Cormac McCarthy: " I never had any doubts about my abilities. I knew I could write. I just had to figure out how to eat while doing this. "). It has been said that reading won 't make you a good writer, but it will make you a better writer. Dip into this lively and useful treasure trove, and you 'll be well on your way.
