The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.

Articles, charts, lists, photographs and illustrations to help you eliminate confusion and uncertainty about topics such as stocking your kitchen, talking about your health, straightening up your home office, taking, editing, storing and sharing digital photos, doing laundry, preparing a home emergency kit and buying electronic gadgets for your car.

Billionaires think differently than most people. If you took away all of Donald Trump's money, he would be right back to where he is today because of the way he thinks. Scot Anderson shares that if you learn to think like a billionaire, then you can become one. Scot takes you on the journey he took in changing the way he thinks. He went from getting by to having millions of dollars and on his way to getting billions. Scot teaches you how to think differently about money, investing, jobs, risks, problems, preparation, and time. As you begin to think like a billionaire, your life has no choice but to produce it.

Start today to transform your dreams into wonderful reality. . . . Simon Potter was a "ragpicker" and salvager of human lives. When this wise and humble man departed from life, he left author Og Mandino a precious legacy: the distilled wisdom of his unique collection of the greatest books about self-motivation and success--books he called "hand of God" books because they seemed to have been written with God's hand guiding the author's own. In this tender and inspiring book, Og shares with his millions of readers his old friend's bequest. It is nothing less than a blueprint for success, telling us in plain language exactly what we must do to mount the seven rungs of life's ladder--from material achievement and worldly success to the highest spiritual development. Whatever your most cherished dream may be, Og and his good angel Simon will show you the way to bring it within reach.

Filled with pragmatic insights, proactive strategies, and best practices, The New CFO Financial Leadership Manual, Second Edition is destined to become your essential desktop companion. This thorough guidebook is essential reading for the CFO requiring an overview of strategies, measurement and control systems, financial analysis tools, funding sources, and management improvement tips.
